

Higher Probability Commodity Trading

A Comprehensive Guide to Commodity Market Analysis, Strategy Development, and Risk Management Techniques Aimed at Favorably Shifting the Odds of Success.

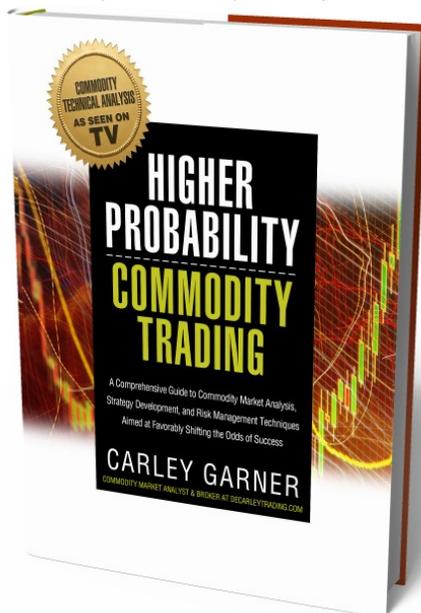

Higher Probability Commodity Trading takes readers on an unprecedented journey through the treacherous commodity markets!

Shedding light on topics rarely discussed in trading literature from a unique perspective, with the intention of increasing the odds of success for market participants. The Author, Carley Garner, is a frequent contributor of commodity market analysis to CNBC's Mad Money TV show hosted by Jim Cramer. She has also been a futures and options broker, where for over a decade she has had a front row seat to the victories and defeats the commodity markets deal to traders.

In its quest to guide traders through the advantages and disadvantages of commodity trading, this book covers the following topics

- Commodity market analysis (technical, seasonal, fundamental)
- Trading strategy development
- Commodity portfolio construction
- Unconventional risk management techniques
- Market sentiment reading
- Realistic examples, and visual chart explanations of complex concepts
- And more...
